It's easy enough
—the Ball corset. That's because it has coils of fine wire springs in the sides. They clasp the figure closely, but yield to every motion.

They "give", but they come back. So does your money if you've worn a Ball corset two or three weeks, and find that you don't like it.

GAINS A PRESTIGE.

The Canadian Pacific Secures an Entrance into Chicago and is Now Looking After New York.

NEW YORK, April 16.—The Sun says: A crisis seems not far away in the New York Central, Canadian Pacific alliance. Vanderbilt, Depew and Webb seemed to have had chiefly the interests of the New York Central in mind when they made the alliance. A big family row has been the result, and the presidents of the Lake Shore and Michigan Central companies, it is said, protested that the Canadian Pacific would injure them irreparably. It has an entrance into Chicago over the Wabash and already it has made a hole in the tonnage of the other lines, while in connection with the New York Central, the Canadian road would gain a prestige that would give it a big share of high class freight.

The Sun's special from Washington says: "Senator Cullom confirms the news that Secretary Blaine is driving at the question of subjecting Canadian railroads to the transportation laws of the United States. Senator Cullom and the secretary have already conferred informally on the question. The Illinois senator was perhaps the first to perceive the importance of the subject, and it was at his instance that the senate authorized a special committee to make a careful investigation of it a year ago. 'If Mr. Blaine has taken up this subject in earnest, as I have reason to believe that he has,' said the senator last night, 'I shall have hope of something being accomplished. No other international question now occupying attention is as important as this. The trade reciprocity with Canada is nothing if Canadian railways are permitted to go on cutting the throats of our transportation lines, discriminating against our cities, and diverting traffic from its legitimate channels. We must make war on Canada all along the line. We must adopt her own policy of selfishness in every phase of our relationship, till we have forced her government into a more liberal policy. For the protection of our commercial and transportation interests we must insist upon subjection of Canadian railways to the provision of our interstate commerce law.'"

TRADE RELATIONS.

Nova Scotia and Newfoundland Discuss the Matter.

HALIFAX, N. S., April 16.—The resolution extending sympathy to the people of Newfoundland in their fishery troubles, and expressing regret that the bait law has been put in operation against the provincial fishermen, was adopted in the house of assembly yesterday by a vote of twenty-three to ten. Premier Fielding, in moving the resolution, said it was a matter in which a large section of the population was interested and the legislature might be pardoned for approaching the Newfoundland government in a friendly spirit. He had been informed that at least 3,000 men were employed in the fisheries and if they were not able to procure bait it would mean ruin to very many of them. The opposition leader, Mr. Cahan, deprecated any interference pending the negotiations now in progress in London, and opposed particularly the clause of the resolution expressing sympathy with Newfoundland in its effort to procure improved trade relations with the United States, Premier Fielding, in reply, said that he was as anxious as anybody to obtain reciprocity with the United States, but if Canada could not obtain it and Newfoundland could, he would say in God's name let them get it."

OTTAWA, Ont., April 16.—The minister of marine and fisheries states that in consequence of the arrangement for a conference between the United States and Canada on trade matters, the government will ask parliament to renew the modus vivendi arrangement as applicable to the Atlantic fisheries for the present season of navigation only.

A Fatal Wreck.

CHARLESTON, S. C, April 16.—A wreck occurred on the Asheville and Spartanburg railroad last night by the collision of a freight train from Asheville and a material train near Landrum. The fireman and a negro on the material train were killed. Both engineers and eighteen of the hands were injured, many of them fatally. The collision was the result of the freight conductor's disobedience of orders.

Rides Her Shame in Death.

ALTOONA, Pa., April 16.—Rose Gillespie, an accomplished young woman of this city, committed suicide yesterday. She made an anti-mortem statement showing that she had been the victim of misplaced confidence. Her betrayer has been arrested.

Andrew Monroe has been made captain, and one of the lieutenants is the well known hotel man and supervisor, Louis F. Goodsell. They expect to have two hundred members and will offer their services to the secretary of war.

DEMOCRATIC NOMINATIONS.

Tickets Named at Lafayette, Decatur and Bedford.

DECATUR, Ind., April 16.—The democrats held their city primary election under the Australian system, this being the first primary election ever held in this county under the new system. The party is so well pleased with it that it will continue to use it in the future. The present incumbents were all nominated except the treasurer, as follows: W. R. Reed, mayor; Henry A. Fristoe, marshal; David O. Jackson, clerk, and Francis E. McLean, treasurer. With Jacob Yager councilman for the First ward, Henry Stutler for the second ward, and Titus Ernst for the Third ward, the ticket is an excellent one.

BEDFORD, April 16.—The people's convention last night nominated the following city ticket: Mayor, F. E. D. McGinley; clerk, S. J. Hannagan; treasurer, George J. Beardsley; marshal, John A. Maule, and for water works trustee, William Leslie. All but Mr. Leslie's are renominations.

A COLLISION AT SEA.

The Calland Runs Into and Sinks the Glamorgan.

LONDON, April 16.—At 9 o'clock last night the Dutch steamship P. Calland, Captain De Veris, from New York April 10, for Amsterdam, collided in the English channel with the British steamer, Glamorgan, bound from Aulwerp for Cardiff. The Glamorgan sank shortly after the collision occurred. At the time of the disaster an extremely heavy fog prevailed. The crew of the P. Calland succeeded in rescuing the ship's crew off the Glamorgan, who had fortunately been able to lower their boats and get away from their sinking vessel. The Calland arrived in Dover Roads with her bows badly stoved, but was unable to anchor because of serious injury inflicted upon her anchoring. She was also injured below the water line. Tugs were promptly sent to her assistance.

After a Circus Interest.

CHICAGO, April 16.—R. R. Jacobs, who is the owner of fifteen theatres, said yesterday that an English syndicate had been formed to buy his route. He asks $500,000 and they offer only one half that amount, but in all probability all of Mr. Jacobs' theatrical interest will soon pass into the hands of the syndicate. Mr. Jacobs is trying to obtain an interest in Barnum & Bailley's show. He says he is anxious to concentrate his investment in one interest.

Saunders Turns Up.

CHICAGO, April 16.—Thos. Saunders, who has been badly wanted by the officials of Manistee county, Michigan, for operating an alleged swindle by which he is said to have cleared $65,000, was found at his home in Englewood yesterday, but was not arrested, as he was watching by the bedside of his sick daughter. Saunders says he will go back to Michigan as soon as his daughter is better.

STORM IN TEXAS.

Buildings Damaged, Trains Wrecked and the Country Flooded by the Overflowing Streams.

DENISON, Tex., April 16.—The most violent electric storm ever known in this section prevailed here Tuesday night. A number of houses were almost totally demolished by lightning and many narrow escapes from death are reported. The electric lights were cut off and darkness prevailed. The dome of the new commercial college was struck and considerably damaged. The dwelling of Mr. Timberlake, four miles west of this city, was almost destroyed by lightning. A man was killed west of the city. A colored woman and also a number of cattle were killed during the storm at Colbert, six miles north of here.

BELTON, Texas, April 16.—Tuesday night a heavy storm filled the creeks and rivers here, doing considerable damage. The trestle over Bird's creek, between this city and Temple, was washed away, and an engine and ten cars of freight were thrown into the stream. Engineer Cleub, Fireman Lee Paul, and the head brakeman, name unknown, were instantly killed. The other trainmen escaped by jumping into the water. The road is blocked.

THE FIRE RECORD.

Dallas and Covington Suffer by the Fiery Fiend.

DALLAS, Texas, April 16.—The Todd mills and elevator were destroyed by fire last evening. The mill and machinery were valued at $80,000; insured for $50,000. Twenty car-loads of flour, owned by Armstrong & Co., were consumed; insured. The Texas and Pacific and Santa Fe railroad companies suffered considerable loss in cars and trestle work. Many telegraph poles were burned and the wires are down. The aggregate loss will reach $200,000. A spark from an engine caused the conflagration.

CINCINNATI, April 16.—Early this morning the four-story building at Russell and Harvey streets, Covington, Ky., occupied by the P. Goldsmith base ball and toy factory burned, entailing a loss of $30,000 or $40,000. The stock was valued at $25,000, with $15,000 insurance.

Murdered His Step-Father.

ARKANSAS CITY, Ark., April 16.—Tuesday evening, Joe Bradberry committed suicide at the town of Watson, because a widow named Winters refused to marry him. Just before he died he made a confession in which he stated that about twelve years ago, when he was a boy of twelve years of age, he killed his step-father, John Posh, at his home, near Watson, by knocking him in the head with a club, and that after he committed the deed he threw the body in Red Fork bayou, where it was afterwards found. His only reason for killing Posh was that he did not like to work, and Posh made him do so.

A Juvenile Suicide.

MONTGOMERY, Ala., April 16.—Willie Menheim, aged thirteen, became angry with his mother Tuesday, and told her he was going to commit suicide. His mother merely laughed at the threat. The boy procured a rope, and before his mother's eyes made his preparations for death. He fastened the rope to the ceiling, and putting the end around his neck got up in a high chair and jumped. Just before the leap, he said: "I have spited you, mamma." His neck was broken. His mother saw him as he made the fatal spring.

A Colored Man Killed.

PEORIA, Ill., April 16.—Rufus Easton, colored, was shot five times and instantly killed at the St. Julian restaurant on Fulton street, by Johnny Deitwig, about 8 o'clock this morning. Easton had threatened the life of Deitwig many times and at the time of the meeting this morning had a butcher's cleaver under his coat. The coroner's jury is now in session over the remains of Easton.

England Sympathizes With Us.

LONDON, April 16.—The Times sympathizes with the American determination not to allow vile social diseases like the Mafia to take root, but reminds them that they displayed little indignation when societies similar to the Mafia were employed by the Irish-American exterminists. The Globe and St. James Gazette refer to the note as an able state paper.

Run Over by an Electric Car.

SOUTH BEND, Ind., April 16.—John McDonald, a boy aged seven years, was run over and killed yesterday by an electric street car. This is the first serious accident on the electric line since it was established here.

James Ashton, who for years was the chaplain and moral instructor in the Eastern penitentiary, has submitted a long statement to the legislative investigation committee, in which he charges Warden Cassidy and the keepers of that institution with the practice of horrible brutality. Specific details are given in statement.

BECKER'S EDICT.

The Base Ball Manager Issues Strict Rules—Notes of Interest.

Captain Guy Hecker intends that they shall be well disciplined this season and has adopted a code of rules which he says will be strictly enforced. Four of the ten rules are as follows:

While at home every member of the team shall report at the ball park promptly at 9:30 a. m. and 2:30 p. m. (unless otherwise ordered) for practice or play. No excuse for absence or being late on such occasions will be taken, and no player will be permitted to leave the grounds before the appointed time unless excused by the manager. For every violation of this rule the manager shall inflict a fine of $2.

No player of the team shall smoke while in uniform.

Players must retire no later than 11:30 p. m., and no player shall be aloed after 8:30 a. m., unless he is sick or disabled. For each violation of this rule a fine of $5 for first offense and $10 for second offense will be inflicted.

If any player at any time during the term of his employment be guilty of any excessive indulgence in liquors of any kind, he shall be fined $15 for the first offense, and $25 for the second offense, and that any subsequent offense shall be punished only by suspension for the balance of the season. Any player during the term of employment guilty of insubordination or any dishonorable or disreputable conduct, will be suspended by the manager for such definite period of time as may be just and reasonable.

NOTES.

The season opens May 1.

The Randall hotel will be season headquarters for the Fort Wayne club.

The game between the Fort Wayne club and the Pilsners will take place to-morrow at League park.

Louis Heilbroner is in Grand Rapids to-day to meet with the committee to arrange a schedule of games.

A. G. Spalding, who, for a quarter of a century had been a prominent figure in base balldom, has resigned from the presidency of the Chicago club to retire from base ball forever.

McGraw, who is trying to evade the contract he signed with Fort Wayne, will be held or else will go down on record as an "unreliable" player, and that means a good deal nowadays.

Manager Meyer has signed Holland, the short stop who played with Kansas City last year. The papers of that city criticise the management there for letting Holland go. He must be a player.

The members of the Fort Wayne ball team have nearly all arrived in the city, and active practice will at once be instituted by Manager Hecker. Those players already here are Briggs and Raffert, catchers; Hubbard and McCarty, second basemen; Bert Ilks, pitcher; Ogden and Mulhearn, fielders; O'Rourke, shortstop. Sounders; Inks, Snow, Miller and Soule are yet to report. The three last named come on trial, not having as yet been signed. Holland, newly signed, will arrive to-night or to-morrow.

The Toledo Bees says: "The directors of the Toledo Base Ball association held another meeting last night and perfected arrangements very materially. Mr. Charles H. Morton was present, and after some preliminary discussion, he consented to take a block of stock, and act as secretary and manager of the team for the coming season. Other matters were talked over and it was decided to call upon the business men of the city for aid. The city is advertised and greatly benefited by a ball club, and if the people do not help there will be no club. That is positively certain. Mr. Ketchum will not carry the club as in former years, but the citizens will be expected to assist."

The American association games yesterday resulted as follows: At St. Louis—St. Louis, 13, Columbus, 8. At Baltimore—Baltimore, 14; Athletics, 4. At Louisville—Louisville, 5; Cincinnati, 4. At Washington—Washington, 2; Boston, 6.

Eastern Capitalists at Marion.

MARION, April 16.—The April convention of Mason, Wiley & Buster brought to this city, yesterday, over 400 capitalists and manufacturers from various New York cities. The visitors are seeking locations and investments, and have come to the gas field for that purpose. The arrival was made the occasion for opening the York Inn, a magnificent hotel that has just been completed in the western part of the city. The event was celebrated last night by a grand ball and banquet. The visitors will remain here until Friday evening, when they will return to New York by special train.

Gas Developed at Terre Haute.

TERRE HAUTE, April 16.—There is strong reason to believe that Terre Haute is at last to have a gas well. Gas was developed to-day in the Guarantee oil well, No. 6, which is 985 feet deep. The flow of gas is particularly strong, considering that it forces its way through a column of water filling the four-and-one half-inch pipe the full distance. In none of the other oil wells drilled here gas has been found below the marsh gas depth and in the rock, as in this instance. Further drilling is to be continued.

WHIPPED HER "HUBBY."

The Hero of the 100-Hour Walking Match Has a Tussle With His Wife—The Woman in Court.

A prisoner in Justice Wilkinson's court this morning was Lotta Martin. She had been arrested by Constable Schlandorff, on a warrant charging her with assault and battery on her husband, Jacob Martin, who attained some notoriety a week or two ago by walking in the one hundred-hour walking contest at the World's museum.

The testimony in the case showed a chapter of domestic life that should be a warning to the young man who is contemplating matrimony, and carries with it the moral that a man should never marry a woman "who is a better man physically than myself."

Martin and his wife were married several years ago. Both of them at that time were familiar with the joys and sorrows of matrimonial life, but in spite of their experience, it was not long before their incompatibility of temper caused a separation and divorce. They found, however, that they could not live apart and they were soon remarried. Another divorce followed and about a year ago they were married for the third time.

Mr. and Mrs. Martin live at No. 2 Madison street. This morning one of their little "love spats" occurred at the breakfast table, when they began quarrelling about some of Mrs. Martin's old lovers. Hot words flew thick and fast and Mrs. Martin's ire was aroused to the highest pitch when her husband called her several pet names. She is a big, strong, healthy-looking woman, 5 feet 10 inches high and weighs nearly two hundred pounds, while he is smaller and lighter in weight. Their quarrel lasted some twenty minutes, when Mrs. Martin, picking "her hubby" up in her arms, carried him over to a bed, which stood in one side of the room, and administered a good, sound thrashing to him. Not content with this, when he had succeeded in extricating himself from her grasp, she got after him with a potato masher. It was then that Martin yelled "murder," "police," "She is going to kill me." "Help! Help! Help!" and his cries brought a dozen or more women living in that vicinity to the scene. They succeeded at last in quieting down the "Female Amizon," and Martin escaped further chastisement.

An affidavit for assault and battery was filed and Mrs. Martin was arrested. The story of their domestic joys and unhappiness was told to Justice Wilkinson, who at last concluded that a fine and costs of $13.50 would fit in the case and he decreed that Mrs. Martin should pay that amount as a punishment for the privilege of whipping her husband.

This aroused the woman's anger again and she stood on the floor and abused her husband in the severest of terms. "You have got to pay this!" she said. "Me," he replied, "I haven't got any money." And then another tirade of abuse followed, and poor, meek Martin at last consented to hunt up docket bail, and the two, with the constable, started out of court on this mission. The woman is the master of her husband. She rules the ranch, and in spite of their quarrel this morning, the law suit and the fine, the two will settle their difficulty and live together again.

THE COURT CALENDAR.

The Tiffin Advertiser says: "Jacob Schock, of Albion, sheriff of Noble county, Indiana, was in the city on Monday, on business connected with the Kuhns case. On one occasion he and the noted Indiana desperado indulged in a lively shooting bee, though neither of them were injured. He called at the jail to see Marvin but the latter did not show any signs of recognition and neither spoke a word."

There was one drunk in police court this morning. He was sent to jail.

The last will and testament of Peter Mottler was filed in the clerk's office. He gives his property, real and personal, to his wife.

Coroner Kessler has filed the inquest in the case of Mary C. Glessner. It gives heart disease as the cause of death.

Colerick & Oppenheim, as attorneys for Isabella D. Taylor et al. filed a complaint for damages against the Fort Wayne Iron works for $1.5.

American and Italy Warring.

NEW CASTLE, Pa., April 16.—Several hundred Italians employed on a new railroad at Lawrence Junction several days ago struck and their places were filled with Americans. Yesterday the Italians raided the Americans, driving them from the work and throwing the foreman into the river. A collision is expected to-day, when the Americans will be put to work under guard.

Funeral Service of Mrs. Halford.

WASHINGTON, April 16.—Funeral services over the remains of Mrs. Mary Frances Halford, wife of Mr. E. W. Halford, the president's private secretary, was held at 2 o'clock this afternoon at the Foundry M. E. church, Rev. E. Hoff officiating. At the request of Mr. Halford the services were simple and of a private nature, only the intimate friends and a few prominent government officials attending the services. The pall-bearers were: Secretary of War Proctor, Colonel Ernst, Gen. H. V. Boynton, ex Senator Pierce, General Michener, Major Richard Parker, Lieutenant Parker, of the navy, and Colonel Cook.

WILL REMAIN OUT.

The Fourteen Thousand Strikers Get Financial Aid and Will Hold Out.

SCOTTDALE, Pa., April 16.—The efforts of the coke operators for a general resumption of work is plainly manifested to-day. Twenty-eight men are working at Summit and the first coal mined in nine weeks is being placed in the ovens. There are fears of an attack by strikers at these works and more deputies have been placed on guard. Twenty-six Italians were sent to Summit to-day and two car loads of workmen were shipped to Whitney's works this afternoon. The strikers are very angry at foreign laborers for taking their places, and threaten trouble. Frick's officials report increased forces of men at all plants. Labor Leader Parker says that 11,000 men are still on a strike, and will remain, as money is now on the way for the relief of the needy families. It is expected that many families will be evicted to day.

AN OLD SETTLER GONE.

Mrs. Christina Yerks, of Milan Centre, Dies at a Ripe Age.

Yesterday, at her home in Milan Centre, this county, occurred the death of Mrs. Christina Yerks, at a ripe old age. The deceased was a resident of Allen county since 1841. She was the widow of the late John Yerks, who died in 1870, and the following children survive her: Mrs. R. L. Romy, this city; James Yerks, the Milan Centre grocery-keeper; William and Franklin Yerks. The funeral will take place to-morrow noon, and the interment will be in Parker's cemetery.

The Whisky Case Jury.

CHICAGO, April 16.—The evidence in the whisky trust plot is at last before the federal grand jury. Deputy Marshal Charles, who is at Peoria, has been informed that his services will not be needed there any longer and will return to-day. There is a rumor about the government building to-day to the effect that the jury was polled and found to be unanimous against finding a true bill against one Geo. J. Gibson for attempted bribery. The officials would neither deny nor substantiate the rumor. Agent Summerville seems confident that an indictment will be returned, while United States District Attorney Milchrist is, to say the least, doubtful of the result. The jury will not report on the case separately, but will give their report in when Judge Jenkins arrives. This may not be until the latter part of next week.

The Chicago Election Contest.

CHICAGO, April 16.—When the election commissioners resumed work in the official count to-day, the friends of Mayor Cregier were ready to admit that as far as the canvass had gone, he had lost 104 votes by comparison with the semi-official returns placed in their hands the morning following the election. The republicans lay claim to a gain so far of 120. Mr. Creigers friends have never claimed a plurality for him of over 233 and a loss of a dozen more votes would wipe it out altogether. Four wards, the twenty-second, twenty-third, twenty-fourth and twenty-fifth, were canvassed to-day before the board adjourned for lunch. Washburne lost nine votes and Creigier one in this mornings canvass.

Safe Blowers at Work.

NEW CASTLE, April 16.—Barnard Brothers & Co.'s store, at Middletown, was entered by burglars last night and the safe blown. The charge was so heavy that the back part of the store was blown out, and Miller Brothers' drug store, next door, almost completely wrecked. The great noise of the explosion aroused the neighborhood, and the burglars fled without securing anything of value.

One Tough Embowels Another.

TROY, N. Y., April 16.—David Kirby, a notorious character, cut open the abdomen of Michael Ford, and severely cut Patrick McGrath about the arms and hands, during a quarrel Tuesday. Ford is in a critical condition and Kirby is in jail. Ford is known all over the country and was a certain attendant at any big prize fight. Kirby claims to have acted in self defense.

Hydrophobia Abroad.

MASON, Ia., April 16.—Residents of Ellington township, Hancock county, are excited over the ravages of rabies. Six weeks ago a stray dog went through the township biting every animal it could reach. In one stable eleven horses were bitten. Several have gone mad and had to be killed. New cases are developing every day.

An Unprovoked Murder.

CHICAGO, April 16.—While John Trod, a clerk on West Twelfth street, was carrying a small show case into a store last night, he accidentally jostled a passing pedestrian, who stabbed Tron to the heart, put his knife in his pocket, turned up his coat collar, and escaped around the corner. No one knows the murderer.

THE ANGEL OF DEATH.

Loved Ones Are Borne by Its Presence to Eternity—Addie Gaffney Called Home.

When the immortal messenger, Death, steps into a happy home and removes one of the family circle, it leaves in the wake of its departure mourning and sorrow; but when in three years' time a wife and mother, a son of promise, and a daughter grown to womanhood are summoned to their last rest, and when at last another of the beloved children is borne from earthly associations—then there is indeed great cause to grieve. Such a case as that is called to mind in the death to-day of Miss Addie, the daughter of William Gaffney, the South Calhoun street grocer, a young lady of most excellent qualities, whose loving disposition had endeared her to a large number of friends. As the bells were chiming the hour of 6 this morning the spirit of this pure girl was separated from the body for all time to come. At the home, 305 South Calhoun street, the picture of sorrow cannot be clothed in words. On April 1, three years ago, Mrs. Gaffney died, leaving her husband and nine children to mourn her loss. The following June a son died, and only a year ago another daughter, a young lady, had joined the great majority. Miss Addie contracted a severe cold, followed by a protracted sickness of la grippe, terminating finally in placing the sufferer within the grasp of that torturesome destroyer, consumption. The deceased was the sister of Miss Tillie Gaffney, a clerk in the store of Louis Wolf & Co. The funeral will take place from the house at 1 p. m. Sunday and at 1:30 from the Cathedral. The sorrowing father and his children have the sympathy of the community in their bereavement.

ROYALLY TREATED.

President Harrison and Party Given Ovations Everywhere.

ATLANTA, Ga., April 16.—The presidential party retired to the special train last night immediately after the reception at the governor's mansion. The morning sun was rising on the distant hills about Atlanta when crowds began to gather around the president's special train. By 8 o'clock the people numbered 2,000, almost equally divided between whites and blacks. Shortly after 8 o'clock a committee of prominent citizens with the passenger agents of the different roads in the south on which the president is to travel, repaired to the special train and presented to Mrs. Harrison a magnificent bouquet of Jacqumonette roses. About 8:30 cries were made for the president and he responded by speaking from the platform of the observation car. At the conclusion of the president's speech, Post-Master-General Wanamaker was called upon and his eloquent allusion to the death of Grady was received with great enthusiasm. He told the crowd good-bye with sorrow. There was liberal cheering from the people around the depot when the train pulled out for Birmingham and the people who were massed on the Broad street bridge gave the train a hearty cheer as it passed under. An old colored man followed the train for a hundred yards yelling with all his might, "Hurrah for the republicans."

SECRETARY BLAINE'S REPLY.

The Italians Decline to Admit the Irresponsibility of Our Government.

LONDON, April 16.—In the chamber of deputies to-day Marquis De Rudini, the Italian premier and minister for foreign affairs, replied to a question as to what action the government would take in view of the note of the American secretary of state, Mr. Blaine, addressed to the Marquis Imperiali, the Italian charge de affairs at Washington. The Marquis De Rudini said that the Italian government would decline to admit the irresponsibility of the United States toward the states composing the American union. The question at issue in the present controversy was one which interested every civilized government in the world as well as it does that of Italy. Continuing, the premier said that the Italian government had no fear of political difficulties, but it was filled with regret that so highly a civilized country as the United States should fail in the fulfillment of its duties to the cause of justice and morality. Cheers greeted the conclusion of the premier's explanation.

In political circles in this city Mr. Blaine's last note causes disappointment. It is spoken of as vague and inconclusive and as leaving the matter in statue quo.

THE EIGHT-HOUR LAW.

The eight-hour law enacted by the legislature of two years ago may become a very troublesome statute to corporations. It will if the courts hold that employes who have been working more than eight hours daily may recover wages for the overtime, and that is the question the supreme court is to be called upon to decide. A suit or two involving this point have been brought before justices of the peace, but they did not reach the higher courts. But yesterday Henry Spaan, as attorney for William L. Smith, brought a suit in the superior court at Indianapolis which will be carried to the supreme court. Mr. Smith was an employe of the Cleveland, Cincinnati, Chicago and St. Louis railroad at the time the law was enacted and until recently, when he was discharged. The complaint alleges that he worked twelve hours every day, and he brings suit against the road to recover wages for the extra half day worked for 662 days, at the rate of $1.45 per day. Corporations are anxious to have the troublesome question settled by the courts, and by argument this will be made a test case.

BLAINE REPLIES TO ITALY.

Secretary of State Blaine has sent his reply to the last letter from the Italian government concerning the killing of the Italians in the New Orleans massacre. It is a long and complete answer to all the questions raised in the last note from Italy. He does not recede from the former position taken by this government concerning the indemnity question. The gist of the letter is contained in the closing paragraph, which is as follows:

Where the injury inflicted upon a foreign resident is not the act of the government or of its officials, but of the individual or of mobs, it is believed that no claim for indemnity can justly be made unless it shall be made to appear that the public authorities charged with the peace of the community have connived at the unlawful act, or having timely notice of the threatened danger, have been guilty of such gross negligence in taking necessary precaution as to amount to connivance. If therefore it should appear that among those killed by the mob at New Orleans there were some Italian subjects, who were resident or domiciled in that city, agreeably to our treaty with Italy and in no violation of our immigration laws, and who were abiding in peace of the United States and laws thereof and of the state of Louisiana, and that the public officers charged with the duty of protecting life and property in that city connived at the work of the mob, or upon proper notice or information of threatened danger, failed to take any steps for the preservation of the public peace and afterwards to bring the guilty to trial, the president would, under such circumstances, feel that a case is established that should be submitted to the consideration of congress with a view to the relief of the families of the Italian subjects who lost their lives by lawless violence.

COMMON COUNCIL.

Reports of Special Committees Submitted—Monthly Reports of the Treasurer and Clerk.

REPORT OF SPECIAL COMMITTEE.

We, your committee appointed to hear objections to proposed street improvements in accordance with notice of which due publication was had, met at the council chambers in the city hall on Monday evening, April 13, 1891, at 7:30 o'clock p. m., for the following improvements:

Clinton street, from the north line of Berry street to the south line of Wayne street, to a width of 42 feet, be graded and paved with Trinidad asphalt pavement, and reset the stone curbing on both sides of the street.

Lafayette street, from the north line of Lasselle street to the south line of DeWald street, to a width of [illegible] feet, be graded and paved with live cedar blocks, 6 inches long, on a foundation of clean coarse sand 8 inches deep after rolling, and a gutter stone along the stone curbing on both sides of said street 12 inches wide and curb on both sides of said street with stone curbing 4 inches thick and 18 inches wide.

Lafayette street, from the south rail of the track of the Wabash, St. Louis & Pacific railway to the north line of Lasselle street, to a width of 28 feet, be graded and paved with live cedar blocks, 6 inches long, on a foundation of 6 inches of broken stone after rolling, and two inches of sand, and a gutter stone along the curbing on both sides of said street 12 inches wide, and curb both sides of said street with stone curbing 4 inches thick and 18 inches wide.

Hayden street, from Francis street to Walton avenue, be graded to a width of 40 feet.

The sidewalks on the east side of Hanna street, from the north line of Wallace street to Herndon street, be graded to a width of 10 feet and relaid with brick to a width of 6 feet.

The sidewalks on the north side of Fourth street, from the west line of Tangoin's addition to Barthold street, be graded to a width of 10 feet and paved with brick to a width of 4 feet.

The sidewalks on the west side of Clinton street from Murray to Hamilton streets, be graded to a width of 12 feet and paved with brick to a width of 5 feet.

The sidewalks on both sides of Putnam street, from Wells street to Franklin avenue, be graded to a width of 12 feet and paved with brick to a width of 5 feet, all brick sidewalks now constructed to the proper grade and line will be exempt from this resolution.

The sidewalks on the east side of Wefel street, from High street to the alley on the north line of Wefel's heirs addition, be graded to a width of 10 feet and paved with brick to a width of 4 feet.

That the sidewalks on the east side of Hanna street, from a point 50 feet south of the south line of Wallace street to the north line of Herchange street be graded to a width of 15 feet and relay the brick to a width of 6 feet.

The sidewalks on the south side of Butler street, from Clinton street to Lafayette street, be graded to a width of 12 feet and paved with brick to the width of 5 feet.

The alley between Calhoun and Clinton street, from Lewis street to Montgomery street to a width of 10 feet be graded and paved with live cedar blocks 6 inches long on a foundation of clean coarse sand 6 inches deep.

No objections was made to any improvements, but your committee recommend that Lafayette street from Wallace to Dewald streets. The resolution to be changed so as to read on a foundation of six inches of broken stone and two inches of sand, instead of eight inches of sand, we therefore recommend said work be made.

THE SPRING POETS

Do not have the beautiful budding season to themselves. Melodious as they are they do not attract as much attention as the tell-tale symptoms that make their appearance when the blood is impure and the system is in a state of disorder. The boils and eruptions that take advantage of the season to tell their story are dumb, but eloquent. Their meaning cannot be mistaken. Spring is not by any means a beautiful season to those whose systems have been neglected until the warning comes in the shape of boils and eruptions. It is a season, however, that can be thoroughly enjoyed by those who are thoughtful enough to take time by the forelock. A bottle or two of the great tonic and blood purifier S.S.S. will accomplish wonders. It drives out and destroys all humors of the blood. James L. Boyle, of Atlanta, writes: "I had awful sores and pimples on my face, and after using two bottles of S.S.S. I was cured."

WHAT IS THE GRIP?

The Mysterious Malady's Disease Carefully Analyzed and Described—What to Do When it Comes.

Nearly every physician, every scientist and every sufferer has been asking this great question. What is the Grippe. Some have asserted that it is a dangerous microbe which comes into the system freely several little at every second, and overruns the body with disease. Others have said that we are passing through a region of star dust, and that the minute particles are drawn into the body with every breath. Whatever it may be it is certain that it is something within the body which is fighting with the body to undermine the life.

What would common sense dictate in such an emergency? Counteract the enemy. Drive it from the system. Do not trifle with it. Act promptly and wisely at the first approach which you can readily detect. Take something which can counteract their deadly influence. Spirits of some kind are the best thing to take, and whiskey is preferable to any other kind of spirit, but it should be borne very carefully in mind that only pure whiskey will have the effect, and it should also be remembered that Duffy's Pure Malt Whiskey stands at the head of all preparations and is the only medicinal whiskey upon the market. Scientists have asserted this, the doctors have verified it, and millions of people have proven it beyond a doubt. There are many unscrupulous dealers who will assure you that any whiskey will answer the purpose, but they are wrong and are trying to deceive you. In case of Grip you cannot afford to take any chances, therefore take that which is, beyond question, pure, medicinal and the only valuable whiskey upon the market.

for their surplus crop. Here farmers are able to work out of doors every day in the year, and stock run on grass from January to January. Many farmers in Kansas and in the north-west are selling whatever equity they have in their farms, buying the cheap lands of Texas. And in many instances clearing the price of the land from their first years crops. The latest census shows that few farms in Texas have their farms mortgaged. The Texas school fund is the largest of any commonwealth in the world, aggregating in cash and lands some sixty millions of dollars. State taxes are ten cents on the hundred dollars.

LOCOMOTIVE FREAKS.

Antics of the Iron Horses Before They Settle Down to Business—Personal and Otherwise.

"The freaks of a locomotive," said an engineer yesterday to a reporter for the Indianapolis Journal, "are sometimes difficult to explain. Engine No. 71 on the Louisville, New Albany and Chicago road, for some weeks after coming out of the shops was run between Lafayette and New Albany, and by a half dozen different engineers, and without exception they pronounced it a worthless piece of machinery. The master mechanic decided to give the engine a test on the first division between Indianapolis and Monon, and the engine is now considered one of the fastest and most reliable engines the company has, and whenever it is desired to haul the vestibule trains a mile a minute No. 71 will do it."

Superintendent Darlington, of the Indianapolis division of the Pennsylvania lines, tells of a novel thing regarding a locomotive which, when he came on the road, was running between Bradford and Columbus, Ohio. So many men had been killed on this engine, and such an unlucky piece of machinery was it that engineers and firemen were timid about having anything to do with it. Shortly after Mr. Darlington took hold the engine was sent to the shops for general repairs, and in a jocose way Mr. Darlington suggested that its number be changed. The master mechanic favored it, and it was changed, and since that time it has behaved very handsomely and been perfectly exempt from accident.

An official of the Vandalia thinks there is more trouble from the freaks of engineers than of engines, yet he says that there are engines which seemingly are always running into trouble until something singular comes up, and then the trouble ceases. A few years ago an engine was run by Mr. Sherburne, one of the best engineers on the road, and a very careful man, yet in four years it ran over seven persons and killed them outright, lastly killing Engineer Sherburne. The engine was then taken into the shops, rebuilt, and has been running seven years, nearly, without injuring a person.

On the St. Louis division of the Big Four, engine 104, built at the company's shops, was in several wrecks, went through a bridge, then was blown from the track by a cyclone. After killing four persons, lastly Michael Redmond and his son in the same wreck, it was rebuilt, and has now run two years without an accident.

SHOP NOTES IN BRIEF.

A. J. Ford is again manipulating the throttle of a Pittsburg engine.

W. O. Bassett, of the Pittsburg machine shop, is on the sick list.

E. Lenz has returned to work, after an illness, in the car shop of the Pennsylvania road.

Engine No. 91 has gone into the shops at Grand Rapids for a general overhauling.

Emmett Dunlee is sick. He is the foreman of the spring department in the Olds Wagon works.

Fred Meyer attended the wedding of Gus Forrick and Cora Christle to-day, officiating as groomsman.

The wheel room of the Olds Wagon works is closed for repairs. It will be running as usual next week.

George Bemer, of the Olds wagon works, is again at his usual post, having recovered from his recent illness.

Pittsburg Engineer O. Stecher has been summoned to Monroeville to attend the funeral of his sister-in-law.

S. Lett, the youngest fireman on the Pittsburg road, is again able to resume his run, after a severe attack of rheumatism.

A. J. Huber and Oline Kretzinger, of the car department of the Pittsburg, are enjoying a brief respite from their toils.

The services at the railroad Y. M. C. A. Sunday afternoon will be in the form of an illustrated talk by the general secretary.

August Knocke, of the Olds wagon works, will be married to one of Allen county's most charming young ladies on the 23 inst.

Fred Schult has ended his vacation by returning to work in the Bass shops. Peter Rhodes, of the same shop, is now taking a vacation.

The little daughter of Mr. and Mrs. Charles Mennewisch is very ill with the measles. Mr. Mennewisch formerly worked at the Bass works.

Six heavy freight engines are to be added to the equipment of the Louisville division of the Pennsylvania lines within the next sixty days.

The steam hammer operated by A. Haverly, in the Pittsburg blacksmith shops, is being repaired and the men are working in other departments.

The Brotherhood of Machinery Moulders have completed arrangements for their annual ball, which takes place the evening of April 21, at Randall hall. Between 200 and 300 tickets have been sold and the committee in charge are greatly encouraged with the outlook. It undoubtedly will be a success financially and socially.

G. P. Lehr, of the Pittsburg round house, is suffering with a lame knee, which prevents him from following his usual occupation.

L. Dobler, fireman at the Pittsburg round house, was taken suddenly and severely ill this morning, and was compelled to quit work.

Fireman W. Notestine, of the Grand Rapids, has taken his run, after a brief vacation. H. P. Snyder, of the same road, is on the sick list.

George Haswell, of the Organ factory, is rapidly regaining his health and hopes to be able to resume his occupation by the first of next week.

John Rhinewald, formerly foreman in the Chauvey Bros. carriage shop, is arranging to establish a sign-painting establishment on South Calhoun street.

Charley Lahman, the man who was so badly injured in the Olds Wagon works some weeks ago, has returned to work, the injured hand having healed.

The survey of the Indianapolis, Logansport and Chicago railroad has been completed. It is estimated that the road can be built for $9,000 a mile.

The moulding rooms of the Bass works are running as usual to-day, with the exception of one cupalo in the car wheel department, which is being relined.

T. C. Parrish and J. B. Ryan, firemen on the Pittsburg, have resumed their runs. The gentlemen recently returned from an extended tour of the southern states.

Several of the departments in the Pittsburg shops will probably be closed Friday and Saturday afternoons to allow the men to attend the funerals of William Rogers and Mrs. R. H. Harrison.

Thomas Jackson, engineer of maintenance of way of the Pittsburg, Fort Wayne and Chicago road, has obtained a two months' leave of absence, and, accompanied by his wife, will make a trip to Alaska.

Fort Wayne shop men can console themselves with the fact that business in other cities is suffering still worse than it is here. At the Ohio Falls car works fifty men were laid off Saturday on account of no work.

William Kade, a core maker at the Bass works, is suffering with a severely lacerated arm. Yesterday in attempting to raise a window at his home, his hand slipped through a pane of glass, a sharp piece of which entered the fleshy part of his arm and inflicted a painful wound which will disable him for some time. All of the pieces of glass have been taken out of the flesh, it is thought, and no serious results are apprehended.

James C. Hewes, foreman of the Pittsburg boiler shops, and the late William Rogers, assistant foreman of the same shop, were intimate friends for over forty-five years. The two men worked in the same shop in Pennsylvania before coming to this city, and both came here about the same time. In fact, it was agreed between them when young men that they should be associates during life, and nothing has ever occurred to break that friendship.

La Grippe Again.

It has no equal in la grippe, or any throat, chest or lung trouble. Trial bottles free at Dreier & Bro.'s drug store. Large bottles, 50c and $1.00.

PROJECTED CIRCUS MONOPOLY.

What One of the Sells Brothers Has to Say of the Scheme.

"Is it true," said a reporter to one of the Sells Brothers, "that the equal partners of an eastern show are attempting to monopolize the circus business, and to crush out all opposition, including even the smaller and cheaper concerns?"

"Such is undoubtedly the fact," replied Mr. Sells, "and the mere exposure of such a mercinary and brutal scheme condemns it, and should arouse public indignation."

"Are you acquainted with its details?"

"Only in a general way," said Mr. Sells. "I know that the parties to whom you refer have purchased the control of a dead man's name and a portion of his personal property, and that they publicly deny having done so, and make use of still another man's name as 'general owner,' is pretty good evidence that their intentions won't bear daylight. It is generally understood in the profession that these gentlemen propose running two shows under different names—at the same time in different sections of the country and, if possible, to catch others between these upper and neither millstones and grind them to powder. They are also seeking to have the licenses raised beyond the power of smaller shows to pay.

"Will it succeed?"

"No, sir! emphatically no! In the first place, these land pirates are running counter to an aroused public sentiment, which they might as well try to swim up Niagara Falls as to oppose. The people are thoroughly indignant and alarmed at the unbridled rapacity of trusts and 'combines' of all kinds, and the mere term 'monopoly' is a stench in their nostrils. Besides, they intuitively go in for fair play, and naturally sympathize with the weaker party, especially when unprovokedly attacked. Again, the country has grown too big and populous for any one management to successfully play the role of Czar. And, finally, there is one opposing show too strong to be either beaten or bulldozed, and too decent to further such a scheme—and that one is ours. We have refused to compromise in the slightest degree in that direction, and will fight it out on any territorial line we may choose to follow, if it takes our last dollar. We have the biggest, best, most legitimate and cleanest show of its kind in America, and the public know that so well that we have never yet been beaten in any opposition when the chances were at all equal."

Physicians Couldn't Cure Him.

SHANESVILLE, Hamilton Co., O., June, 1889. One bottle of Pastor Koenig's Nerve Tonic cured me entirely, after physicians had tried it unsuccessfully for 8 months to relieve me of nervous debility. W. HUENNEFELD.

Suffered Awfully.

Lombardville, Scioto Co., O., March, 1890. I was at first afflicted with a sort of paralysis of my right side, which grew worse until I was pronounced by the doctors epileptic fits. I suffered awfully during nine months, although good doctors tried their best to relieve me, but since I took the first spoonful of Pastor Koenig's Nerve Tonic I have been relieved. THOS. HALEY.

The Best Remedy

I ever used, says F. Meier, of E. Saginaw, Mich., is Pastor Koenig's Nerve Tonic for epilepsy. I used it seven months; had only one attack since, while formerly every two or three weeks.

Rev. B. Goossens, of Maple Valley, Mich., knows of a case of St. Vitus' Dance which was cured by two bottles of Pastor Koenig's Nerve Tonic. 161

Our Pamphlet for sufferers of nervous diseases will be sent free to any address, and poor patients can also obtain this medicine free of charge from us.

This remedy has been prepared by the Reverend Pastor Koenig, of Fort Wayne, Ind., for the past ten years, and is now prepared under his direction by the

The Century Company's Great War Book.

"BATTLES AND LEADERS."

TAKE NOTICE—More than three fourths the articles and pictures described in these four volumes of over 3,000 pages did not appear in the Century Magazine. For this reason, and because of the thoroughness and revising and editing, this is virtually a New Work, unique in plan, personal interest, merit of illustrations and maps, and their great historical value.

WRITTEN BY { 150 UNION GENERALS. 150 CONFEDERATE GENERALS.

As a consequence we have in "Battles and Leaders" the work which will stand for all time to come as the STANDARD HISTORY of the most momentous four years the world ever saw.

It gives all the statistics relating to every battle of the civil war, whether by land or sea; the rosters of every regiment, brigade and division, with the Colonel or General in command, and the losses in killed, wounded and missing in both the Union and Confederate armies.

The ILLUSTRATIONS are worthy in every particular of the subject matter. There are over 1,700 in number.

There are about 1,000 battle scenes, showing positions and movements of troops in different engagements.

There are over 300 field maps, showing the exact position of every brigade, battery and skirmish line, both in the Union and Confederate armies on every battlefield.

There are over 100 portraits of eminent men on both sides in the war, and show many of our most distinguished men in feature, dress and attitude hitherto unknown to the public.

Battles and Leaders.

Syl Yewell, jr., an old newspaper man of Indianapolis, is in the city in the interest of the Century publications, handling their great war book, "Battles and Leaders," which will be sold on the easy payment plan, as will be seen by the advertisement. No works that have appeared on the late war or any previous wars known to our country or modern history occupy the position these works do on the reading world. The original articles that appeared in the magazine created a sensation unparalled to anything ever written on this continent, increasing the sales of the century from 40,000 to 140,000 copies monthly. All these have been rewritten and revised, making the sets comparatively new works.

Nearly Frantic.

Has it ever been your misfortune to be brought into frequent contact with a person constantly nervous. If so, you must be aware that trivial causes unnoticed by the vigorous, drives a nervous invalid to the verge of destruction. It is as unnecessary to particularize these as it is impossible to guard against them. The root of the evil is usually imperfect digestion and assimilation. To assist these functions, and through their renewed, complete discharge to reinforce nerves, in connection with other portions of the physical organism, is within the power of Hostetter's Stomach Bitters, systematically and continuously used. There is no disappointment here, no matter what or how grevious the failures of other so-called tonics. No sedative or opiate—avoid both!—can compare with this invigorating nerve regulator. Constipation, biliousness, malaria, rheumatism, kidney troubles are cured by it.
